

# THE CUSTOMER ROBOT CALL SCRIPT

Hey...sorry you broke up there for a second...  
is this **\*\*BUSINESS NAME\*\***?

Yes

OK cool, I wasn't sure if your guys were open, it said  
closed for some reason and I didn't see a website or anything,  
you guys are still open and doing service calls right?

Yes

Ok, Amazing... I actually build you guys a beautiful website  
if I do say so myself. If you like it you can keep it... is that  
something you would like to look at?

Do you already have it build now?

I have the homepage itself built, I have not build up the rest  
of the site yet... I believe in giving value first and then if  
you like it I will finish it. The design is yours for free... you  
just pay for the hosting!

Can you send it to me by e-mail?

It's not live, it's here on the computer, but I could make a  
Google Meet and share my screen with you.

Why did you build a website for me?

We are a marketing company specializing in Roofing Contractors  
from the UK. I searched on Google for Roofing Contractors and saw  
you did not have a website registered, so I thought I would do some  
good and build you one that you can have for free if you want,  
you just have to pay for web hosting.

How much is the web hosting fee?

It's 100 pounds every month and includes full service like backup,  
updates, phone and e-mail support. If you want any change  
whatsoever, just let us know, and we will do it for you, all included in  
the price. There is no minimum amount per month, no upfront fees, no  
nothing.... You simply pay 100 pounds every month and when you don't  
want our service anymore you just stop... it's as simple as that!
